Patterson Dental Supply
12008 Portal Road #102
La Vista NE 68128

JOSH WREN, DMD

Dr. Josh Wren received his Doctor of Dental Medicine degree from the University of Mississippi School of Dentistry in 2005. He then completed the Pediatric Dentistry residency program at the University of Kentucky in 2007, where he obtained his Specialty Certificate in Pediatric Dentistry. After residency, Dr. Wren established Wren Pediatric Dentistry in Brandon, Mississippi. He is a diplomate of the American Board of Pediatric Dentistry and Mississippi representative to the Southeastern Society of Pediatric Dentistry. Dr. Wren is an online and live speaker for www.dentaltown.com and serves as the moderator of the pediatric dental forum. In 2013, he founded Pediatric Dental Seminars to educate practitioners on pediatric dental topics.

PEDO LECTURE

“Pediatric Dental Pearls”

Friday, October 12, 2018

(8 hours AGD Pedo Lecture Credit)

This course is designed to give the participants a clear understanding and comfort level working with children while learning modern techniques and materials in all aspects of pediatric dentistry. There have been many changes in the materials used in pediatric dentistry over the past few years. By using specific cases from his office, Dr. Wren will review his choices of materials and methods for performing various pediatric dental procedures. While this presentation is case based, Dr. Wren will briefly review the science and literature behind the materials that he uses. At the conclusion of the course, the participant will know how to confidently treat the pediatric patient and get predictable treatment results.

Learning Objectives

- Learn “modern day” behavior guidance methods
- Understand emerging trends in caries control and treatment that is based on caries risk assessment
- Understand the differences and treatment decisions of glass ionomer vs. bioactive vs. resin based composites
- Learn when full coverage restorations are needed and how to perform these procedures (resin crowns vs. class III restorations in the anterior primary teeth, stainless steel crowns vs. large amalgams/resins)
- Learn when/how to perform various pulp therapy procedures (indirect pulp therapy, therapeutic pulpotomies, pulpectomies) and the materials that are proven to be the most successful
- Learn the ultimate painless local anesthetic technique when treating all primary teeth

HANDS-ON TRAINING

“Pedo/Ortho lecture and Ortho hands-on”

October 13 & 14, 2018

Saturday & Sunday

If you attend the entire 3 days, you will receive 12 hours AGD Pedo Participation Credit and 12 hours AGD Ortho Participation Credit. While you only need 12 hours participation in ortho and 12 hours participation credit in pedo to fulfill the AGD Mastership requirements, 24 additional hours of participation credit (12 in pedo/12 in ortho) may be earned by presenting a clinical homework assignment after the course and presenting in March of 2019. There is an additional fee.

Learning Objectives for the Pediatric Hands-on Training

- Learn how to prepare, crimp and seat stainless steel crowns
- Learn how to prepare and seat anterior resin crowns
- Learn how to prepare and seat anterior and posterior zirconia crowns
- Learn how to use and implement Activa restorative composite in the class II restoration
- Learn the indications for lingual and labial frenectomies
- Learn the difference between a scalpel frenectomy and a laser frenectomy

The AGD-Nebraska is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 1/1/2018 to 12/31/2021. Provider ID# 219313

ORTHO LECTURE

“Interceptive Orthodontics: From growth and development to treating common malocclusions”

Learning Objectives for Orthodontic lecture

- Understand an abbreviated cephalometric analysis
- Learn how to treat common malocclusions in the mixed dentition—posterior crossbites, anterior crossbites, transient crowding
- Learn when to refer patients for an orthodontic evaluation
- Learn when to look for what on your panoramic evaluations
- Learn when to place what space maintainers when dealing with premature loss of primary teeth
- Learn how to treat hypocalcified first permanent molars (should I extract, should I seal, should I restore with full coverage)

Learning Objectives for the Hands-on Orthodontics Training

- Learn how to fabricate the various space maintainers—band and loop, lower lingual arch, wire nance
- Learn how to fabricate and quad helix for expansion
- Learn how to fabricate a Nance button + Z-spring for anterior crossbite correction
