**ACADEMY** of  
**GENERAL DENTISTRY**

# 2021 NAGD Spring Meeting

2-day Participation Course with

Dr. Nels Ewoldsen

**“Distinguish Your Practice Using “Know-How, Show-How” Removable  
Prosthodontic Skills”**

**Friday, February 19, 2021 – 8:00 a.m. to 8:00 p.m.**  
**Saturday, February 20, 2021 – 8:00 a.m. to 1:00 p.m.**

**Cornhusker Marriott**  
**333 S. 13<sup>th</sup> Street, Lincoln, NE 68508**

**(16 hours of AGD Removable Participation Credit)**

Dr. Nels Ewoldsen, graduate of Indiana University School of Dentistry, earned his DDS in 1978 and MSD in 1994 (dental materials & prosthodontics). His career includes 25 years solo private practice, 5 years full-time dental educator, (UNMC College of Dentistry) and 10 years in product development & clinical research (GC Corporation & Dentsply Prosthodontics). He has published more than 30 reviewed manuscripts, contributed to 2 textbooks and presents nationally and internationally. Throughout much of his career he taught part-time (IUSD) and has participated in more dental mission trips than he can accurately recall. Dr Ewoldsen owns and operates Conservative Dental Solutions, Waveland, IN focusing on value-based, patient-centered, evidence supported, real world dentistry.

**Dr. Ewoldsen offered a 1-day lecture which will be available online by mid-. This course is a pre-requisite for the 2-day hands on course.**

### **“Removable Prosthodontic Materials & Techniques: Digital vs. Conventional Approaches”**

More than a decade ago proof-of-concept digital denture reports highlighted a shortened clinical sequence with reduced technician involvement and quality improvements. Where are we now and what have we learned about digital technology and complete dentures? Which technologies and materials are applicable to removable partial dentures? Honoring traditional *prosthodontic principles* as well as *scope of practice regulations*, this course reveals unique, uncomplicated treatments for patients with or without dental implants. From three appointment complete dentures to partial dentures (analog and/or digital), this presentation features shortened clinical sequences, details responsibilities of a *chairside denture technician* and demystifies digital (CAD/CAM) as well as analog (traditional lab-fabricated) removable prostheses.

By attending this lecture, you will learn:

- tissue conditioning techniques and simplifying replacement denture fabrication
- single appointment denture impressing techniques
- predictable 3-appointment denture sequences
- simplified approaches to esthetic preview, tooth arrangement, lab communication
- which CAD/CAM technologies add value, which don't
- which CAD/CAM materials and techniques improve partial dentures
- how denture template techniques facilitate implant treatment planning
- advantages/disadvantages: chairside component pick-up vs indirect processing
- maintenance tips and techniques for implant retained dentures

To register for the lecture portion of this course, please contact the NAGD Office at 402-438-2321

## **“Distinguish Your Practice Using “Know-How, Show-How” Removable Prosthodontic Skills”**

**2-day Participation Course – February 19 & 20, 2021**

**Faculty:** Nels Ewoldsen DDS, MSD; Terry Johnson. CDT (Dental Designs Laboratory), Kristi Neff, CDT (Dentsply Sirona), Joel Cash (Beehive Dental Lab, St. George, UT), Savannah Burgess, CDA (chairside denture technician, Conservative Dental Solutions) with special appearance by Dr. Lawrence Wallace (founder & CEO, Larell One Step Denture)

### **Hands-on learning:**

In addition to demonstrating a live-patient, 3-appointment complete denture participants will experience/learn:

- to duplicate a complete denture and use duplicated denture data (analog & digital duplication techniques)
- expedited denture impressing techniques
- techniques for communicating denture tooth form and position (analog & digital)
- techniques for combining esthetic preview with maxillo-mandibular relation records
- posterior palatal seal placement and simplified record base construction
- Craddock Mounting technique in lieu of facebow transfer
- phonetic verification techniques confirming tooth position and OVD
- when a clinical remount is required, how to quickly complete a clinical remount
- options for additive and subtractive partial denture frameworks
- in-office repair and relines materials & techniques
- denture retrofitting following implant placement
- to fabricate a custom incisal guide table to improve 'averaging' articulators
- Pick up Zest Locator Housings in a Larell One-step mandibular denture

***This course is supported by Dental Designs Laboratory and is sponsored by Dentsply-Sirona Prosthetics, Larell One-Step Denture, Zest Dental Solutions.***

**Participants should bring lighted headlamp/loupes/eye protection, lab coat, Hanau Alcohol Torch, favorite denture waxing instruments & lab knife.**

The AGD-Nebraska is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 1/1/2018 to 12/31/2021. Provider ID# 219313

**Course Fees**

AGD Dentists: Lecture Only.....\$350

Non-AGD Dentists: Lecture Only....\$600

AGD Dentists: lecture & 2-day Participation Course..... \$1,950

(Includes materials, meals and handouts. Lodging not included)

Non-AGD Dentist: lecture & 2-day Participation Course ..... \$2,600

(Includes materials, meals and handouts. Lodging not included)

The 2-day participation course is for doctors only!

We encourage you to register early and take advantage of the member discounts. Space is limited!!!

**Register by January 5<sup>th</sup> to avoid a \$50 late fee! Due to the fact that this is a participation course, reservations for this course will need to be made by February 5, 2021!**
